

April 2020

Dear Friends of the Harry Sutherland Library,

The library will be closed to the public for the duration of the COVID-19 crisis. Our April open Saturday is cancelled and we will schedule more only when we know that we will be able to be open again. I will be in the library at times and will check emails (still library@greenefoundation.ca) although we cannot circulate books.

Much of my work over the last few months has been with our digital holdings. We now receive several journals digitally including the Canadian Aerophilatelist published only in digital format now. There is a small binder above our journal display showing these journals. Some of the journals that we receive on paper also have digital versions.

We now have the new 2020 Gibbons and Scott catalogues. Both are on display in Main 1, under the journals.

Our longtime subscription to the *British Philatelic Bulletin* had lapsed a few years ago. When we started to get it again in 2019 the title had changed to *The Royal Mail Philatelic Bulletin*. We are pleased to be getting it again although we now have a gap from volume 53, number 7 (March 2016) to volume 57, number 1 (September 2019). If you have any of these issues that you are willing to part with we would like to complete our holdings.

I hope that I will be able to have better news next month.

Keep well and safe,

Willow
